GLOBAL EDUCATIONAL FOCUS

For students to participate effectively in this changing world, they must understand it. The 21st century student will sell to the world, buy from the world, work for international companies, compete with people from other countries, manage employees from other cultures, collaborate with people all over the world, and solve global problems.

Dual Language

Dual language program supports both native Spanish speakers and native English speakers in becoming bilingual, bicultural, and biliterate.

Students will be equipped with specific skills to compete in a global job market, while cultivating their abilities to effectively communicate, collaborate, create, and think critically in appropriate and respectful ways.
